Quality Programs

USDA ORGANIC

The Food Source will meet any organic requirements that your customers expect

KOSHER

The Food Source will meet any Kosher requirements

NON-GMO PROJECT

We're ready to source ingredients that don't include genetically modified organisms

GLOBAL FOOD SAFETY INITIATIVE (GFSI)

This initiative works to enhance food safety during every step of the process, from sourcing to distribution

GOOD MANUFACTURING PROCESS (GMP)

The Food Source uses the GMP for high-quality products

HAZARD ANALYSIS & CRITICAL CONTROL POINTS (HACCP)

We use the HACCP system to reduce the risk of unsafe products as the result of our production processes

GLUTEN-FREE

The Food Source will develop your flavor or seasoning to meet gluten-free standards

VEGAN

We cater to the needs of vegan products

Production Capabilities

Yes, we can! A phrase that pleases the soul, but is rarely heard in your day-to-day routine. At The Food Source, it's a mantra and emboldens us to craft the systems necessary to produce a wide ranging library of dry ingredients.

All TFS ingredients are produced in GFSI-certified facilities. From there, the individual processes take on a life of their own. With various capabilities from onsite continuous steam treatment, size reduction, moisture control, laser sorting, custom blending and dedicated plantings, we have the ability to produce raw materials that fit your products.

Tell us about your ingredient challenges. We thrive by crafting ingredient solutions and providing our customers with the always important: Yes, we can.

Custom Blending & Plating

Continuous Steam Treatment

Size Reduction

Laser Sorting

Dedicated Plantings

Vertical Form, Fill & Seal
(1 oz.-10 lbs.)

Horizontal Form, Fill & Seal
(1 g-4 oz.)

Scale Fill for Food Service
(1 oz.-10 lbs.)

Toyo stand-up gusset filling
(4.75-10.25"W x 5.12-15.75"H)
