## Quality Programs

### USDA ORGANIC

The Food Source will meet any organic requirements that your customers expect

### KOSHER

The Food Source will meet any Kosher requirements

### NON-GMO PROJECT

We're ready to source ingredients that don't include genetically modified organisms

### GLOBAL FOOD SAFETY INITIATIVE (GFSI)

This initiative works to enhance food safety during every step of the process, from sourcing to distribution

### GOOD MANUFACTURING PROCESS (GMP)

The Food Source uses the GMP for high-quality products

### HAZARD ANALYSIS & CRITICAL CONTROL POINTS (HACCP)

We use the HACCP system to reduce the risk of unsafe products as the result of our production processes

### GLUTEN-FREE

The Food Source will develop your flavor or seasoning to meet gluten-free standards

### VEGAN

We cater to the needs of vegan products

## Production Capabilities

The Food Source applies experience, imagination, and passion to our seasoning development. This creative approach is carried through to the finished product thanks to our superior production capabilities.

### FACILITY

The Food Source seasonings are crafted in a new, state-of-the-art GFSI-certified facility. This 100,000-square-foot processing facility is where your custom seasonings will be manufactured to your standards, including Organic, Kosher, Vegan, gluten-free and Non-GMO Project verifiable.

### EQUIPMENT

Within the facility we are equipped with over 20 stainless steel double ribbon blenders with various capacities, each in a dedicated temperature controlled room.

### PACKAGING

Customizable packaging is an ease with multiple vertical and horizontal packaging lines, as well as bulk packaging with the ability to fill from grams to 2000 lb. super-sacks. Experience how The Food Source's production capabilities allow us to manufacture your carefully crafted seasoning.
